Our Company

Leadtech Precision Engineering Pte Ltd is one of the leading manufacturers of precision components and customized machinery items since 1997. We provide the shortest turnaround time with one-stop solution in precision turned parts.

Together with our Malaysia subsidiary plant, Nexdor Precision Engineering Sdn Bhd, located in Permas Jaya, Johor Bahru, since 1995, we have the capacity of more than 100 machines. These include the CNC Automatic Lathe, Escomatic and centre-less grinding machines.

Our wide range of materials includes stainless steel SUS 303CU/304/316L/420F, aluminium 6061/2011 and brass C3604BD/C3602BD, as well as fabricated customized components. Examples are shafts, sleeves, pins, studs, spacers and etc.

Our Capabilities

- We are capable of producing components from 0.5mm to 40mm in diameter with a stringent tolerance level of 0.005mm.
- We are able to fabricate high volume quality precision turned parts.
